

IGES/VDA Importer Build 834 Release Notes

August 23, 2004

Importers Released

- IGES/VDA (All versions of IGES supported; VDA version 2.0 supported)

New Options

- **Trim Curves**—Determines how curves will be trimmed.
Three options are available:
 - Auto-detect trimming curve
 - Use model space trimming curves
 - Use parameter space trimming curves

Improvements/Bug Fixes

- Updated to the latest CADlook library (v54.3)
Improvements in the CADlook library include the following:
 - Continues to parse a file even if it encounters problems in the PD section.
 - Improved handling of recursive transform references in IGES files.
 - Better handling of illegal IGES files.
 - Accepts char strings with incorrect character counts.
 - More robust handling of IGES trimmed surfaces.
- Fixed problems causing missing surfaces.
